85c Certain phases in the geological history of the North American continent, biologically considered. Biol Soc Wash, Pr 2 : 41–66 (1885)

85d Notes on the Jurassic strata of North America. Am J Sc (3) 29 : 228–232 (1885)

85e The genus *Pyrgulifera* Meek, and its associates and congeners. Am J Sc (3) 29 : 277–280 (1885)

White, Charles Abiathar—Continued.

86 On the fresh-water invertebrates of the North American Jurassic. U S G S, B 29 : 41 pp, il (1886)

86a On the relation of the Laramie molluscan fauna to that of the succeeding fresh-water Eocene and other groups. U S G S, B 34 : 54 pp, il (1886)

86b The application of biology to geological history. Biol Soc Wash, Pr 3 : 1–20 (1886)

87 On the age of the coal found in the region traversed by the Rio Grande. Am J Sc (3) 33 : 18–20 (1887)

87a Remarks on the revision of the Palaeocrinoidea of Wachsmuth and Springer. Am J Sc (3) 33 : 154–157 (1887)

87b On the interrelation of contemporaneous fossil faunas and floras. Am J Sc (3) 33 : 364–374 (1887)

87c On new generic forms of Cretaceous Mollusca and their relation to other forms. Ac N Sc Phila, Pr 1887 : 32–37, il

87d On the Cretaceous formations of Texas and their relation to those of other portions of North America. Ac N Sc Phila, Pr 1887 : 39–47

88 Remarks on the genus *Aucella*, with especial reference to its occurrence in California. U S G S, Mon 13 : 226–233, il (1888)

88a On the occurrence of later Cretaceous deposits in Iowa. Am G 1 : 221–227, il (1888)

88b On the relation of the Laramie group to earlier and later formations. Am J Sc (3) 35 : 432–438 (1888)

88c On the Puget group of Washington Territory. Am J Sc (3) 36 : 443–450 (1888)

88d Mountain upthrusts. Am Nat 22 : 399–408 (1888)

88e [On the fauna of the Permian in Baylor, Archer, and Wichita cos., Tex.]. Am Nat 22 : 926 (1888)

88f On *Hindeastraea*, a new generic form of Cretaceous Astraeidae. G Mag (3) 5 : 362–364, il (1888)

89 On the geology and physiography of a portion of northwestern Colorado and adjacent parts of Utah and Wyoming. U S G S, An Rp 9 : 677–712, map (1889)

89a On invertebrate fossils from the Pacific coast. U S G S, B 51 : 102 pp, il (1889)

89b The North American Mesozoic [address]. Am As, Pr 38 : 205–226 (1890) Science 14 : 160–166 (1889)

89c The Lower Cretaceous of the Southwest and its relation to the underlying and overlying formations. Am J Sc (3) 38 : 440–445 (1889) ; 39 : 70 (1890)

89d On the Permian formation of Texas. Am Nat 23 : 109–128, il (1889)

89e The Cretaceous deposits of North America (*abst*). Am As, Pr 37 : 183 (1889)

White, Charles Abiathar—Continued.

90 Remarks on the Cretaceous of northern Mexico (*abst*). Am As, Pr 38 : 252 (1890)

90a (with **Bliss,** N. W.) The private life and scientific work of Prof. Amos Henry Worthen. Ill G S 8 : App 3–37, port (1890)

91 The Texas Permian and its Mesozoic types of fossils. U S G S, B 77 : 51 pp, il (1891)

91a Correlation papers, Cretaceous. U S G S, B 82 : 273 pp, maps (1891)

91b On the biological and geological significance of closely similar fossil forms. Am As, Pr 39 : 239–243 (1891)

92 On the Bear River formation, a series of strata hitherto known as the Bear River Laramie. Am J Sc (3) 43 : 91–97 (1892)

93 The relation of biology to geological investigation. Smiths Inst, An Rp 1892, Rp U S Nat Mus : 245–368 (1893)

93a Memoir of Ferdinand Vandiveer Hayden, 1839–1887. Nat Ac Sc, Biog Mem 3 : 395–413, port (1893)

94 Notes on the invertebrate fauna of the Dakota formation, with descriptions of new molluscan forms. U S Nat Mus, Pr 17 : 131–138, il (1894)

95 The Bear River formation and its characteristic fauna. U S G S, B 128 : 108 pp, map, il (1895)

95a Memoir of Amos Henry Worthen, 1813–1888. Nat Ac Sc, Biog Mem 3 : 339–362 (1895)

96 Biographical sketch of Fielding Bradford Meek. Am G 18 : 337–350, port (1896)
